

Registered Cardiology Technologist

Canadian Heart Care is one of the fastest growing diagnostic services firms with clinics across GTA. We offer a wide range of cardiac diagnostic testing and comprehensive consultations. We are a place where patients can be tested and seen at their earliest convenience.

We are growing and with 25+ team members we are seeking exceptional Registered Cardiology Technologists for full time and part time positions to provide outstanding cardiac care and diagnostics for our community and beyond.

****Attention new graduates. Please feel free to reach out to us while waiting for your CSCT exam results.****

Responsibilities:

- Ensuring patient identification, safety, and preparation are correct prior to testing while maintaining patient confidentiality.
- Perform all cardiac testing techniques including Electrocardiogram (ECG) testing, stress testing, Holter scanning, Holter monitoring, and ambulatory BP monitoring in compliance with CSCT guidelines.
- Ensure all quality control assessments are performed as required.
- Take all reasonable precautions and work in compliance with related policies, health and safety legislation, and best practices.
- Follow procedures for proper equipment maintenance, in accordance with department standards.
- Ensure equipment and instruments are performing in an efficient and effective manner.
- Prepare reports as required.

Essential Criteria:

- Cardiovascular Technologist Diploma
- Canadian Society of Cardiology Technologists (CSCT) membership in good standing
- Minimum 1-3 years of experience
- Valid CPR certificate
- Must be proficient in ECG interpretation
- Ability to use EMR proficiently

- Ability to follow emergency protocols
- Strong technical skills, including the ability to operate and maintain cardiovascular equipment.
- Excellent communication skills when interacting with patients and physicians.
- Knowledge of patient confidentiality guidelines
- Strong problem-solving skills and ability to troubleshoot issues with equipment or procedures.
- Ability to work effectively as part of the CVT team
- Strong attention to detail and commitment to accuracy

Job Type: Full-time/Part-time

Salary: \$28.00-\$35.00 per hour

Expected hours: No less than 16 per week
