

Manitoba Director's Report

CSCT Meeting, October 2018

Toronto, Ontario

Greetings from Manitoba,

The MACT had a very successful 2018 AGM on May 5th, 2018, with a record number of attendees and four amazing speakers at the education portion of the day. As it was our 55th Anniversary, we had a presentation by two long term members on the history and future of MACT called "The Big Band and Beyond" which was very well received. We also had a charter member to cut our cake!

In recent months we have been working on increasing the efficiency of processes with our financial institution and to create a better process for members to pay dues. Our bylaws are in need of updating and that is another focus of this year's goals.

Our provincial health care system is going through a restructuring with phase two occurring later this year. We have seen the closure and/or conversion of emergency rooms and urgent care centres with more to come. There has been, and will continue to be, impact to our members. Continuing to keep an eye on the situation and keeping in communication with involved unions will be important.

In closing, we are continuing to be optimistic for the future and keep representing and promoting our profession. We are looking forward to another great AGM in 2019 and more participation from our membership on committees and on the board.

Respectfully,

Colleen Bemister RCT

Manitoba Director
