### **Ontario Director's Report**

October 2017

Our May Education Morning and AGM were held May 6th in Kingston. This was well attended by over 130 members. We welcomed two speakers. Dr. Damian Redfearn spoke about ventricular tachycardia and ablations. Blair Arnold presented a series of interesting ECG's. We ended our education morning with a roundtable discussion lead by Rajinder Virk which allowed our members to provide insight and feedback into challenges facing Cardiovascular technologists today.

At our AGM we welcomed Natalie Watkins into the position of Registrar and Alana Mantler accepted the position of Assistant Registrar. Blair Arnold stepped into the position of interim CEU director and also accepted the seat of Vice President.

We once again encouraged all our members to become active wherever possible in society activities both at the provincial and national level. We also stressed the importance of courtesy and professionalism when communicating with board members.

Our google plus page offers many opportunities for continuing education as well as gaining CEUs and we continue to encourage our members to visit this page often.

Respectfully submitted,

Lorraine Smith, RCT  
President O.S.C.T.
